

About Us

Products,

We Export to 25 Countries!

We understand your needs and expectations.
We are honored to be with you always.

It's a marathon without a break!

ikmalci.com was established in 2006 to meet the needs of the domestic market with domestic and national facilities.

SigmaDefence.com was established in 2016 for Foreign Trade Activities.

Aerofors.com was established in 2021 for Defense Industry R&D Projects.

Our Mission

To meet the needs of our Turkish Armed Forces and Security Forces with domestic and national technologies with an innovative and contemporary approach,
To strengthen our country's defense industry by contributing to its exports.

Our Vision

To have a product diversity that can address different operational needs and mission areas by increasing the diversity of defense industry products with national technologies and domestic capabilities.

R&D Projects

In order to minimize the risks faced by Gendarmerie and Police Teams in traffic road applications, we bring different product technologies used in the world to our country and nationalize them.

Shoulder Flasher, Traffic Road Robot, Road Warning Flasher etc. We meticulously carry out the R&D work of countless products.

What We Do

As a specialized manufacturer of military and police security equipment, we offer high quality solutions that meet the needs of institutions such as the Gendarmerie, Turkish Armed Forces and the Turkish National Police. Through our R&D activities, we produce ballistic protection, tactical equipment and traffic safety technologies.

Our goal is to support security forces to fulfill their duties in the safest and most effective way. We continue to serve in the domestic and international markets with our quality and reliability-oriented solutions.

Our Market Targets

We continue our R&D processes in Turkey to meet the needs of the Turkish Armed Forces and security forces.

By the end of 2024, we aim to complete our dealership organization in all provinces.

We also aim to increase our current exports to 25 different countries.

PRODUCTS

Ballistic Safety Equipment

With the vision of providing innovative solutions in the field of defense and security, we specialize in the production of ballistic security products. Our wide range of products, produced with advanced technology and superior quality standards, provides maximum protection against modern security threats. From critical solutions such as ballistic glass, armoring, bomb blast resistant structures, unmanned ground vehicles to panic rooms and specially designed ballistic vests, we guarantee your security in every field with customizable products. We make a difference in security with our production power.

Obstacles & Fortifications

Specifically designed for the protection of spaces and defense against external threats, our barrier and fortification products offer superior durability and performance. From Hesco deployment barriers to bollards, from flood barriers to security barricades, our wide range of products fits your security needs. Manufactured with high quality materials and providing effective protection against different threats, our products offer ideal solutions to increase your security in any environment. Reach a new level of defense with our durable and effective barrier systems.

Access Control Systems

Developed to prevent unauthorized access to critical areas, our access control systems are equipped with the latest technology and offer high accuracy and efficiency. From fixed and automatic road traps to under-vehicle monitoring systems, from Sigma barriers to tire deflation kits, our wide range of products meets your every security need. Standing out with their durability and precision, our solutions are designed to maximize the security of places. Take your security to a professional level with our access control systems.

Personal Protective Equipment

Offering the level of protection required for critical tasks, our personal protective equipment combines user comfort and safety. Our ergonomic and durable designs deliver superior performance even in the most challenging conditions. From transparent shields to helmets with visors, from pepper spray to gloves, our wide range of products are manufactured to high quality standards to fully meet your safety needs. We are always at your side with reliable solutions for maximum protection and comfort on duty.

Crime Scene Barriers

Designed to control the perimeter of crime scenes and increase security, our crime scene barriers stand out with their durable and practical use. Our wide range of products, from special barriers for shopping malls, police and gendarmerie use to crime scene covers, provides effective protection with its flexible and robust structure.

Our designs suitable for different needs guarantee your safety under all circumstances with their fast installation and superior durability. Stay in control with our crime scene barriers.

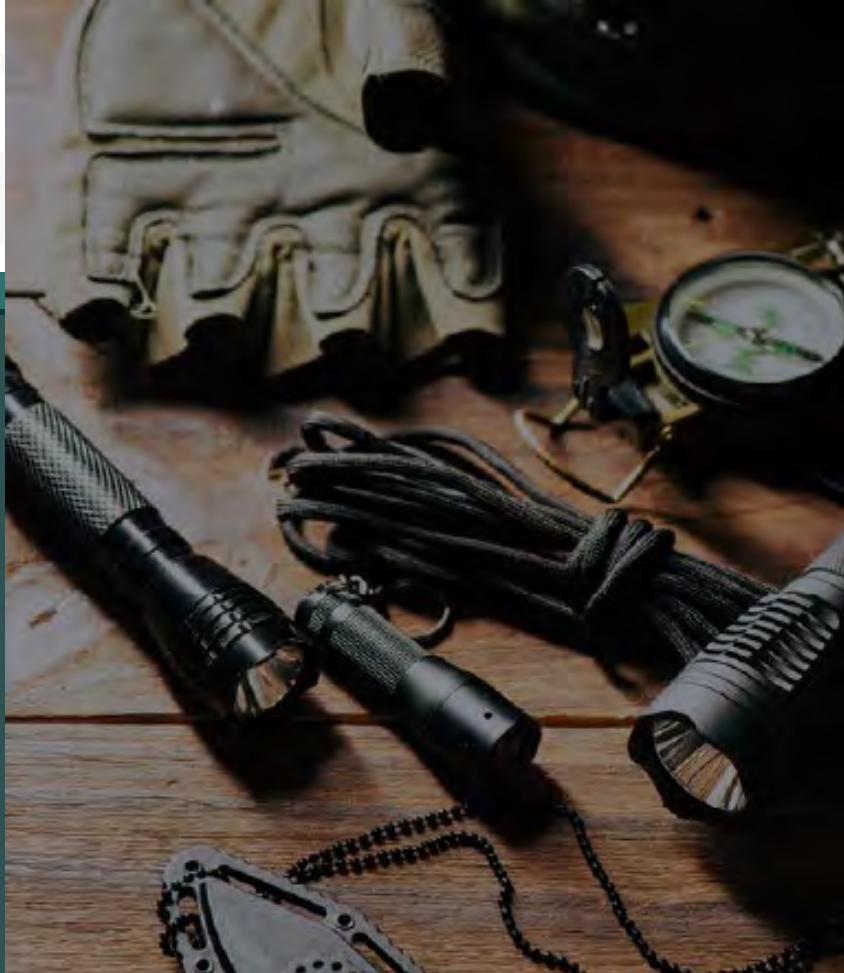

Containers

Designed specifically for your logistics and security needs, our containers offer superior durability and functionality for transportation and storage. From mobile storage, weapons and explosives containers to emergency, hospital and decontamination containers, our wide range of products ensure reliable performance in harsh conditions. Our innovative solutions, such as collapsible, generator and water treatment, make a difference with modular structures suitable for every scenario. Offering a combination of safety, comfort and durability, our containers are ready to meet your every need.

Tactical Hardware

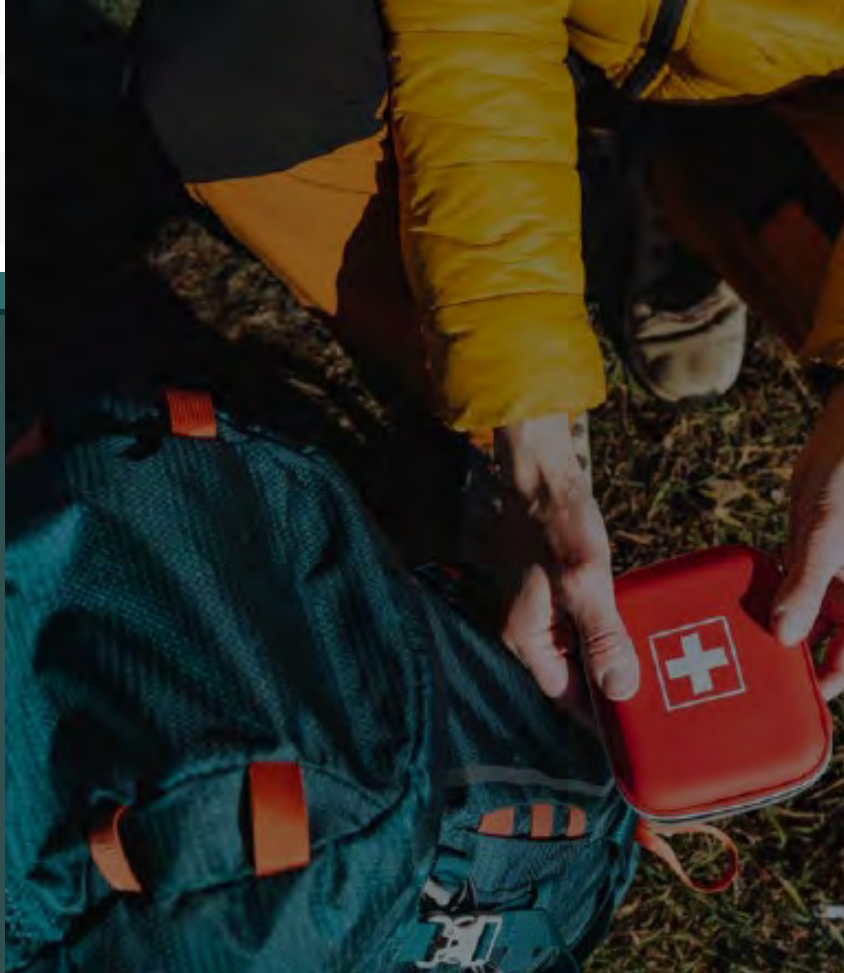

Our tactical equipment products, specially designed for demanding operations, provide the user with maximum mobility and protection.

From liquid storage systems made of durable materials to military tents, from concealment nets to heat-resistant equipment, our wide range of products provide reliable solutions for critical missions. Our products such as sniper suits, boat rescue trailers, campers and megaphones fully meet operational needs. Whether it's a snow-covered environment or a hot zone, be prepared for any situation with our tactical equipment products.

Carry Bags

Designed specifically for the safe transportation of sensitive equipment, our carrying cases combine durability and functionality.

Our tactical cases provide maximum protection during field missions, while our first aid cases offer quick access and reliability for emergencies. Available in different sizes and designs, our bags guarantee the safety of your equipment even in harsh conditions.

Whenever you need them, our carrying cases are there for you.

Traffic Safety Equipment

Designed to ensure traffic safety and minimize risks, our equipment plays an important role in protecting drivers and pedestrians. From solar road buttons to rubber speed bumps, from illuminated traffic signs to under-vehicle inspection mirrors, our wide range of products are characterized by their durability and high visibility. Our solutions, such as portable pedestal signs, school crossing signs and caution signs, are the ideal choice for improving safety in all traffic conditions. All the equipment you need to create a safe environment in traffic is here.

Traffic Warning Lights

Designed to maximize safety in emergencies and traffic control, our traffic warning lights stand out with their high brightness and wide field of view. Our products such as reflectorized stop and cross beacons, overhead lights, shoulder led beacons and road warning flashers exhibit superior performance in all weather conditions. Our wide range of products, from sets of 4 and 6 to folding cones, offer fast and effective solutions in traffic. Always prioritize safety with our effective warning systems.

Triangle Reflectors

Our triangular reflectors, which have a critical importance in vehicle and road safety, help prevent possible accidents by providing high visibility. Our varieties for different needs such as natural gas, gendarmerie, police, road construction, attention and speed control stand out with their durability and easy use. Always be one step ahead on the road with our triangular reflectors that offer a fast and effective safety solution in emergencies.
